

I am opposed to the petition before you from the Consumer Bankers Association (CBA) regarding Indiana's Telephone Privacy Law. I strongly oppose the weaking of our current law. I value my privacy. The current structure of the law protects my privacy and gives businesses ample opportunity and and reasonable methods for contacting me if they need to. Please take my opinion into consideration when you review this petition. I have contacted member banks of the CBA with whom I do business to ask that they withdraw this petition immediately.

Thank you for your time.

Barry J. Sullens
